## Summary

---

Adaptable and results-driven professional with a strong ability to quickly learn and implement new technologies and methodologies. Skilled at contributing to organizational growth through continuous improvement, innovation, and the effective application of technical expertise.

## Work Experience/Internships

---

**React Developer Intern , Techjar Technologies Pvt Ltd** – Pune, India 03/2025 - 07/2025

- Led and contributed to multiple AI ML development projects using OCR ,Computer vision, and python and react.
- Collaborated closely with designers and backend developers to create interactive and user-friendly interfaces.
- Conducted testing and debugging, ensuring cross-browser compatibility and optimized performance and connect various clients to gave them a AI based solution to their problems.

**Full Stack Developer Intern, Numetry Technologies Private Ltd.** – Pune, India 02/2025 – 03/2025

- Designed and maintained dynamic websites for diverse clients, incorporating custom features tailored to specific client requirements.
- Enhanced website aesthetics and usability by integrating responsive design principles, resulting in a 20
- Coordinated with clients to gather feedback, iterating and improving designs to meet evolving needs.

## Education

---

**MCA (AI/ML and Data Science), DY Patil International University-(CGPA- 8.43)** 2023 – 2025  
– Pune, India

**Bachelor of Computer and Applications, GH Rasoni Institute of Business and Management-(CGPA- 8.89)** – Jalgaon, India 2020 – 2023

**HSC, K.R. Kotkar Junior College, Chalisgaon-(Percentage- 68.92)** – Chalisgaon, India 2019 – 2020

**SSC, Tatyasaheb Samant Madhyamik Vidyalaya , Chalisgaon-(Percentage- 82.60)** – Chalisgaon, India 2017 – 2018

## Technical Skills

---

- **Languages:** Python(Numpy,Pandas,Matplotlib,Seaborn,opencv,easy-OCR),SQL
- **Web Technologies:** HTML, CSS, JavaScript, ReactJs.
- **Tools:** Visual Studio Code, GitHub ,Git, Vercel , Snowflake,Jupyter Notebook,Excel.

## Projects

---

### Face Detection Attendance System

- In this project, we explore the development of a reliable and efficient face recognition and attendance system. It leverages Python's powerful libraries for image processing, data management, and user interface, along with effective face detection and recognition algorithms

### Real Time Location Map

- Developed the Real Time Weather App using react which shows the distance and the road between two selected locations.
- <https://real-time-map-app.vercel.app/>

## Soft Skills

---

- Problem Solving and Decision Making
- Strong Communication and Collaboration
- Time Management and Organization
- Ability to work independently and in teams
- Flexibility and Adaptability
- Leadership and Initiative

## Area of Interest

---

- Web Development
- Software Development
- Data Analytics

## Certificates

---

- The Complete Front-End Web Development Course(Udemy)
- Data Science and Machine Learning Fundamentals(Udemy)
- Snowflake Platform Training-APAC
